3. Key Areas of Misalignment

4. Adaptive Strategies in Use

■ Masking ■ Mirroring ■ Rebellion
■ Withdrawal ■ Splitting ■ Role-playing
■ Over-adaptation ■ Denial ■ Idealization

Short description or example:

5. Therapeutic Considerations

- Where can we offer a holding environment that reflects the client's actual stage?
- What stage-based language or metaphors may be most resonant?
- How can we support integration between misaligned domains?
- Are there new environments the client could explore that match their development?
